

# Short-term program at Chinese Universities

More and more international students decide to do a full degree study in China. Studying at a university is a whole adventure on its own, but doing so in China is on a completely new level. Between attending classes and making exams, many students spent the rest of their time sightseeing, shopping or discovering the nightlife in China.

Are you curious whether or not studying in China is something for you? Or do you simply want to study Chinese and learn about the Chinese culture? Then this program is definitely something for you!

## About the program

This two-week program is specifically designed to let participants experience student life in China without having to commit to a full degree. During the program, you will follow Chinese language (speaking, reading and writing) and culture classes; visit famous local companies, go sightseeing through the city and experience everything else China has to offer.

Details of the program are as follows:

**Location:** Hebei, Guangzhou, Chongqing, Shanxi etc.

**Starting Time:** Anytime if there are above 10 students (Please avoid starting in Summer and Winter Holiday, respectively from July 15th - Sep. 1st and from Jan. 15th - March 1st.)

**Duration:** 2 weeks

**Program fee:** Totally 2000RMB, including tuition fee, accommodation fee, registration fee, books, meals, **Air ticket, visa fee are not included.**

## Chinese Language Class

The university's main objective is to increase the enthusiasm for learning Chinese. Moreover, it will ensure the language classes are in accordance with the participants' current Chinese level. During the language classes, students will learn Chinese speaking, reading and writing. Furthermore, the university will teach all students the proper tools and methods to continue (self)studying Chinese after the program has ended.

### Colorful Chinese Culture Experience Course

China is a country with more than 5,000 years of history and unique culture. To help you better understand China and its diverse culture, we will provide you with a range of cultural events to add more color to time in China. These cultural activities include experiencing China's famous tea ceremony, Beijing opera, Chinese calligraphy, PingJu, shadow play, paper-cutting, Tai Chi and local dialect.

### Professional Course Experience

The university arranges accomplished professors and lecturers to show students the benefits of the school and its courses in a lively, interesting and engaging manner. By attending lectures and later putting the newly learned theory in practice, students can experience the relation between modern technology and daily life in a unique way. Some of the technologies they get to deal with are: machinery, electricity, rail transit, electronic information technology and computer technology. At the hand of this tech, Students can experience the joy of innovation by creating and assembling circuit boards, small manuals and other small technological inventions themselves.

### Company Visit

Our motto is "Reading thousands of books is not as good as traveling thousands of miles. Practice is the only means of testing the truth." In order to help students better understand whether their knowledge at school can be applied to future work, and how to consciously prepare themselves for future employment, the school carefully arranged to visit famous local enterprises. During the visit, the company representatives will introduce their business and describe the qualities and skills of the talents they need. Also, they will give a workshop on how the students can become a qualified person in the workplace.
